Re: Private entity use of face recognition technology in Portland, OR.

Mayor Wheeler and Honorable Members of the Portland City Council:

We write to you today on behalf of sixteen civil society organizations that have signed onto this letter asking that you end use of face recognition technology (FRT) by private entities in the City of Portland.

City Council is already considering banning FRT use by public entities. Such a policy was first enacted roughly eighteen months ago by San Francisco, and then later, by twelve other cities<sup>1</sup> due to FRT's great potential for

<sup>1</sup> Boston, Oakland, Berkeley, Alameda, Santa Cruz, Somerville, Brookline, Cambridge, Springfield, Northampton, Easthampton, and Portland, ME

harm and violations of privacy. Although we applaud those municipalities that have exercised self-restraint in this regard, we question why none has yet addressed the private sector, where FRT use is comparably troubling but virtually unfettered. The City of Portland stands poised to take a bold, but much-needed step, regulating how profit-driven businesses and other private entities collect, use, share, and store some of the most personal data about literally every person in sight.

While some businesses seem eager to adopt FRT, perhaps wanting increased sales, loss prevention, and/or customer loyalty, such gains are far from certain. One potential obstacle to their realization relates to the technology's accuracy, especially when used against women and people of color<sup>2,3,4</sup>. Current FRT is prone to error and can misidentify customers who may then face consequences that range anywhere from the inability to enter a store to the possibility of arrest, or even death. The likelihood of an innocent person being mistakenly matched is non-trivial, especially to the affected person.

For example, this past January, a Detroit man named Robert Julian-Borchak Williams, was falsely identified as having stolen five watches, worth \$3,800, and was arrested.<sup>5</sup> He committed no crime but suffered the burdens of being jailed and having to clean up the mess the arrest had created. Before that, in May of 2019, Michael Oliver, another Detroit resident, was misidentified by facial recognition, arrested, and charged with a crime he didn't commit.<sup>6</sup>

An even earlier example happened right here in Portland, back in 2004, when attorney Brandon Mayfield was arrested as a result of a computer algorithm's fingerprint mismatch that connected him with the Madrid train bombings that year<sup>7</sup>. If, despite never having visited Spain, Mr. Mayfield could be identified as a match within a relatively small, tightly controlled, FBI database of fingerprints<sup>8</sup>, imagine the error rate we'd have if all faces were scanned and compared against commercial databases of random quality. Unrestrained face scanning seems like a recipe for disaster. Use of FRT also turns the premise of "innocent until proven guilty" on its head because subjects can be matched as suspects first and then have to prove that they are not the identified person.

Although technological advances may improve accuracy, even if the technology someday functions flawlessly, collection of biometric data will still violate our personal privacy and may lead to manipulation, loss of personal autonomy, data breaches, and other harms. Corporations often portray personalization as a benefit, but having businesses know a vast amount of personal details about us, such as our habits and our up-to-the-moment location, can instead be very creepy. Additionally, private use of FRT can lead to the normalization of pervasive surveillance.

We believe that the only way use of this technology should be considered at all is if persons subjected to it give written, informed, opt-in consent prior to collection of their facial attributes.

At a minimum, subjects should be provided with:

- the details about what information is being collected
- how the information will be used and shared
- how long the information will be retained

Additionally, data should:

- only be used for the specific purpose for which it was obtained
- have a specified expiration date, at which time the information is deleted

Finally, persons who choose to not participate in the collection of their facial data should not be excluded from normal activities such as shopping, dining out, or attending public events.

Face recognition technology constitutes a particularly invasive form of surveillance both because it can be used without the knowledge, consent, or participation of the persons being watched, and because our faces serve as one of the main elements of our identity—one that cannot be easily changed.

Most cities and states already ban dangerous weapons as well as deadly substances like lead, a product that was also once considered to be “useful, if not absolutely necessary, to modern civilization.”<sup>9</sup> We feel that a ban is necessary because face recognition is uniquely dangerous. As Woodrow Hartzog and Evan Selinger explain in their insightful 2018 article, “Because facial recognition technology holds out the promise of translating who we are and everywhere we go into trackable information that can be nearly instantly stored, shared, and analyzed, its future development threatens to leave us constantly compromised.”<sup>10</sup>

Creators, and some users, of this technology often claim its adoption to be our only path forward, but as with weapons and lead, we do have other options, and for the sake of our shared future, a ban is necessary.

While we whole-heartedly support this bill to ban private use of face recognition, we want to emphasize that banning face recognition by itself is not enough. In the near future, the City must also address the collection and use of other biometric measurements as surveillance tools — gait recognition, heartbeat, and other immutable characteristics of individuals; otherwise, both public and private entities will be able to work around any face recognition bans for the same surveillance ends. We encourage the City to pass this bill and to then work to address other biometrics as well as surveillance systems more generally.

More than one thousand Portlanders and the undersigned civil society organizations are requesting a ban on private use of face recognition technology in Portland. Ubiquitous face surveillance and tracking by businesses and other private entities are not inevitable. You have the power to stop their implementation. We ask that you listen to your constituents, and take action now. The people of Portland should not be subject to this invasion of their privacy and essential freedoms.

# 1206 petition signatures in support of bills to ban both public and private use of facial recognition technology in Portland, Oregon

Collected by Fight for the Future on behalf of PDXPrivacy

Dear Portland City Council,

I am opposed to the use of Facial Recognition technology in Portland, OR by both government officials, including police, and by private corporations who might seek to profit off of violating my privacy. We need a full ban on facial recognition in Portland with no exceptions.

Facial recognition is racist. Police use it in Detroit, where they misidentify and jail Black men<sup>1</sup> who look nothing like the photos the facial recognition system matched them to. In fact, according to a federal study,<sup>2</sup> facial recognition is up to 100 times more likely to misidentify people of color. But even if the systems were perfect, facial recognition would still be racist because it fuels a racist criminal justice system. Facial recognition has also been used by police to identify and punish protesters.<sup>3</sup>

Facial recognition is a violation of my right to privacy. I do not want to live in a world where I am constantly being watched. I do not want companies or the government gathering data on my appearance, habits, and routines that they could use to target me, or that could be vulnerable to hackers or stalkers. I cannot change my face or my life like I can change a credit card number.

Furthermore, I do not want companies to collect facial recognition data that cops or ICE use to target vulnerable groups such as immigrants, protesters, and journalists.

I urge you to vote to ban all corporate and government uses of facial recognition from Portland entirely. This technology is a danger to us all and an existential threat to our freedom.

Thank you for standing up for the rights of your constituents.

Sincerely,

The Undersigned

Justin	Griffis	Portland	OR	97206	US	A nation that pervasively spies on and surveils it's people is not a nation that respects or represents the morality of freedom and can never be seen as such. The relationship between the people and their "leaders" or "ruling class" is beginning to more closely resemble that of prisoners and wardens or slaves and masters... The relationship is sick, it is possessive, paranoid, controlling and completely detached from empathy and the values we claim to stand for. It betrays the morality of trust, love and the genuine pursuit of individual happiness and freedom. Relationships like this never last, they only end in seperation or the destruction of one or both parties. This is not what we want if we are to be one united group of free people...

Justice	Hager	Portland	OR	97230	US	Facial recognition software is flawed, data sets tend to reinforce the dominant cultural paradigm (i.e. non-white people are harder to distinguish). Using facial recognition for policing would, therefore, continue practices of misidentification and criminalization in black and brown communities. Please don't move us down this road.
Leah	Hegeman	Portland	OR	97206	US	Facial recognition software is one of tools most prone to corruptive and overbearing use by authorities. We need to nip this in the bud and ban it's use, espically without extremely robust and comprehensive federal guidelines limiting it's use and protecting citizens privacy and safety.
Scott	Eck	Portland	OR	97221	US	Facial recognition technology has been proven to not work! Not only that, but the concept of a computer being Objective is nonsense: They only do what you program them to do, with the samples they are given. They other non-white cis people by their training/programing (depending on whether they are AI-driven or "traditional", respectively). Stop using technology to prop up your racist policies! Camden NJ is NOT a model for us to use, it's just a more high tech implementation of "Broken windows" theory and the surveillance state!
Andrew	Hugelier	Portland	OR	97206	US	Facial recognition technology is still in its infancy, and is not properly regulated in a way that makes it safe for use in public spaces or without consent. Until that time, this technology needs to be used with great care and the citizens of this city and state need protection from businesses and groups that seek to use it.

Jean	Svadlenka	Wilsonville	OR	97070	US	The use of Facial Recognition technology by police, government, or private corporations is dangerous and violates my privacy. I do not want this in Portland where I work and do business, or anywhere else in Oregon where I am a permanent resident.
Ann	Kopel	Portland	OR	97214	US	The use of facial recognition technology is Orwellian and we should all be afraid.
Ron	Tash	Portland	OR	97223	US	There are better more legal methods to obtain personal information or biometrics of suspects. Facial Recognition opens too many doors to become what George Orwell warned us against.

Juniper	Anderson	Portland	OR	97212	US	This ban needs to apply to all of Portland.
Tyler	Bromley	Portland	OR	97203	US	This is a violation of our right to privacy.
Fernando	Fernandez	Clarkston	WA	99403	US	This is an outrageous and gross violation of civil privacy. Our 4th amendment protects us as American citizens to be secure within our own country, TO INCLUDE digital media.
AMANDA	WILLIAMS	Portland	OR	97211	US	This is crazy we can't allow it!
Aurelia	Phillips	Beaverton	OR	97007	US	This is getting scary.
Aurelia	Phillips	Beaverton	OR	97007	US	This is getting scary.
Alder	Meloy	Beaverton	OR	97008	US	This is horrible. We should not be mirroring the tactics used against protesters and civilians in Hong Kong.
Gertrude	Turley	Boring	OR	97009	US	This is just taking things to the next step that is wrong. We need to stop them
Rhett	Savage	Portland	OR	97239	US	This is not in our best interest. Please do not enable it.
Eric	Person	Portland	OR	97212	US	This technology is no longer just a threat due to it's possible mis-use, but with the rise in fascistic dictatorships around the world including here, the future of a free humanity is at stake. Sadly that would have seemed hyperbolic a few years ago, now it's simply reality if you are paying attention.
Alejandra	Magallanes	Vancouver	WA	98684	US	Violation of the fourth amendment
Emily	E Greer	Portland	OR	97209	US	We all deserve to feel safe in our skins and this is a direct stand we can take as a community to work towards that goal, ensuring that our city is a real haven out of the racist surveillance state.
Jay	Simpson	Portland	OR	97266	US	We are already living in a heightened, fascist police state. It's a violation of my right to privacy to collect data on my appearance.
Myron	Boyer	Portland	OR	97206	US	We are close to Nazi America please vote NO
Harlee	Miller	Beaverton	OR	97005	US	We as a country do not need this, not to mention I can't imagine how badly this could be used to racially profile innocent citizens.
Ophelia	Pasibe-Glasser	Camas	WA	98607	US	We cannot turn Portland and the country into a panopticon. We deserve to live free without the government infringing on our privacy. Enough with treating citizens as criminals! The criminals who need to be surveilled are in Washington DC!
Kayla	Daniels	Portland	OR	97215	US	We do not need this in our city! It will cause more harm to those already impacted by systemic oppression.
john	downing	Portland	OR	97232	US	We don't need your racist algorithms. Please ban this terrible surveillance technology.
Moff	Hayes	Ilkeston		DE7 8ET	GB	We have already seen federal agents abducting people into unmarked vans, Facial recognition will cause an upsurge in this behaviour as well as other sinister activities
Michael	Hardin	Portland	OR	97206	US	We must ban facial recognition, it is imbued with the same prejudice that many systems in the world have, and as such is not a tool that should be used in contributing to a more equitable society. Ban it in PDX now!
MISTY	MESAGA	Portland	OR	97210	US	We need a facial recognition ban in Portland, for both public and private use!! Particularly in a time when our country is moving ever-nearer to fascism, this sort of invasive, racist technology needs to be completely banned. As a resident of Portland, I expect that City Council will pass this ban immediately.
KATHERINE	SCHNEIDER	Portland	OR	97206	US	Thank you!
Bethany	Carder	Portland	OR	97239	US	We need to protect our privacy. Especially now!
Katherine	Clark	Portland	OR	97223	US	Where is the freedom in this? why on earth should I sign off on living in a State that tracks me everywhere I go with facial recognition?? Humans were never supposed to live with this little privacy.
Eric	Person	Portland	OR	97212	US	With unmarked federal "troops" abducting citizens extra-judicially in our streets, it's time to stand up to fascism. As the right likes to claim, this is not China. Why the right continues to push authoritarian Chinese-like policies in the US is a mystery to me and anyone else with a shred of intellect.
